Hands-on, high-tech.

Best Experience, Best Outcomes

The medical education experience directly impacts learning outcomes. NBL provides medical product companies and their training event guests with full-service planning in venues that are luxurious, safe, and comfortable.

Technology for Easy Learning

Your hands-on training events are enhanced by exclusive livestreaming from CrowdOptic Intersect™ technology. Real-time multiple-angle viewing for remote training and attendee playback makes learning easier and improves retention.

Convenience

NBL's strategically located facilities and livestream remote training extends your reach without inconveniencing guests. No cross-country travel required.

Full Service Planning

Our full-service planning and execution team takes care of everything from logistics (including cadaveric specimen procurement) to audio-visual and technology needs, catering, hotel, transportation, compliance reporting, and budgeting.

Expertise

NBL was founded by practicing, board-certified physicians who are experienced peer-to-peer educators with more than 20 years' experience in medical device use and education.

FULL-SERVICE BIOSKILLS TRAINING EVENTS

Transforming medical education with CrowdOptic® technology.

National Bioskills Laboratories (NBL) is the nation's only network of physician-founded, physician-focused bioskills laboratories offering full-service event planning and CrowdOptic Intersect™ livestream technology in modern, high-tech settings.

WHAT MAKES US DIFFERENT

Better learning retention - CrowdOptic Intersect™ livestream technology.

Convenience - cross-country locations and remote livestreaming.

Wraparound services - complete planning and execution in luxury facilities.

Faster speed to adoption - through improved education experience.

The CrowdOptic Eye™ offers push-button live streaming and 2-way audio
